SUMMARY

Full Stack Engineer with **4+ years** of experience building production-grade web and mobile applications using **React, React Native, Next.js, Node.js, MongoDB, PostgreSQL, AWS and GraphQL**. Currently at **QSS Technosoft**, building **agentic AI systems with LangGraph** (AI Scrum Master) and **StarPro** — a multi-module financial business platform covering marketing, finance, operations, people, exit planning, US tax and budgeting. Previously engineered the **Rista POS** platform at **DotPe**. Hands-on with **LLM tooling** (OpenAI API, Claude Sonnet, Ollama, Cursor AI), offline-first systems, and performance-focused UI.

EXPERIENCE

Senior Software Engineer **June 2026 – Present**
QSS Technosoft Pvt. Ltd. *India*

- Built **AI Scrum Master**, an agentic workflow system on **LangGraph** that automates sprint planning, daily stand-up summaries, backlog grooming and blocker tracking through multi-step, stateful agent graphs.
- Orchestrated multiple LLMs — **Claude Sonnet** for reasoning-heavy tasks and locally hosted models via **Ollama** for private, low-cost inference — and used **Cursor AI** to accelerate development, refactoring and testing.
- Developing **StarPro**, a financial business platform offering integrated **Marketing, Finance, Operations, People and Exit Planning** tools for business owners and advisory firms.
- Engineered the **US firm tax** and **financial budgeting** modules — tax computation workflows, budget planning and variance views, and data-driven dashboards for financial decision-making.

Senior Software Engineer **Dec 2025 – June 2026**
NeoSoft | *Client:* ***DotPe (Rista POS)*** *India*

- Engineered a **Cart Audit System** for Rista POS tracking 6 cart lifecycle events (*Created, Emptied, Deleted, Order Placed, Long Duration, Session Terminated*) using **Redux middleware** in a **TypeScript/React** codebase.
- Implemented **offline-first persistence** with **IndexedDB via Dexie.js** in an **NW.js desktop app**, plus a **bulk event flush pipeline** with **idempotency** via composite `event_key` to prevent duplicates under retries.
- Resolved complex **multi-session Redux state bugs** (e.g. `cartValue` returning 0 on session termination) and integrated frontend triggers across a **monorepo** (`oracle`, `rista-pos-common`, `sales-services` on Node.js).
- Built **React Native** apps with reusable components, Redux state, offline sync and performance optimizations for Android and iOS.
- Managed deployments on **AWS** (**EC2, S3, CloudFront, Route 53, IAM, Lambda, CloudWatch**) with CI/CD automation; built an **AI-powered CV Builder** with payment-gateway billing and a **Next.js + GraphQL** project management system with role-based dashboards.

Full Stack Developer **Aug 2024 – Dec 2025**
RWS Group (USA) *Remote, India*

- Led end-to-end development of **4 production internal tools** — UB Keep, UB Password Manager, UB Mail and UB Drive — using **Next.js**, **Node.js + Express** and **Tailwind CSS** for distributed global teams.
- Built a **full-stack Digital Asset Management (DAM)** system on the **MERN stack and React Native** with secure storage, versioning, tagging, permissions and sharing.
- Implemented **JWT + bcrypt** authentication with **role-based access control** and built **15+ RESTful APIs** for uploads, user management and version control.
- Applied **SOLID principles**, modular architecture and unit/integration testing; used **MongoDB Atlas** with **CI/CD via GitHub Actions**.

Associate – Junior Full Stack Developer **Aug 2022 – Aug 2024**
Magneto Pvt. Ltd. (India) *Bihar, India*

- Developed healthcare web applications for **pharmacy management and customer engagement**, serving thousands of end-users across India.
- Built responsive UIs with **React.js, React Native, Redux, Next.js and Tailwind CSS**, and **RESTful APIs** with Node.js, Express.js and **MongoDB** for authentication, orders and inventory.
- Awarded the **YES Award for excellence in FY23-24 and FY24-25**; received **positive feedback from 3/3 clients**.

Full Stack Developer Intern **Jan 2022 – June 2022**
Programming Classes *Patna, Bihar*

- Built an automated code review system for a **50-developer** startup, reducing review time by **30%** and cutting production defects by **15%** through static code analysis.

PROJECTS

Ride Tea GupShup (RTG) – Freelance | *React, Next.js, PostgreSQL, Supabase, AWS* **2026**

- Built the complete website for **RTG**, an endurance sports community (cycling, running, swimming, triathlon) with **500+ athletes across 8+ Indian cities** — events, challenges and community pages.
- Used **Next.js** for SEO-friendly rendering, **Supabase + PostgreSQL** for data and auth, and **AWS** for hosting and delivery.

AI Scrum Master | *LangGraph, Claude Sonnet, Ollama, Cursor AI* **2026**

- Stateful multi-agent system that plans sprints, summarizes stand-ups and flags blockers, combining cloud (**Sonnet**) and local (**Ollama**) models.

Jarvis 2.0 — AI Desktop Assistant | *MERN Stack, React Native, OpenAI API, Next.js* **Oct 2025**

- **AI-driven desktop assistant** on the **OpenAI API** with natural-language task execution, real-time response streaming and a robotics-inspired UI.

CV Builder — AI Resume Generator | *MERN Stack, OpenAI API, MongoDB* **July 2025**

- **AI-powered resume platform** using **prompt engineering** for content suggestions; UI/UX designed and shipped independently.

Digital Asset Management System | *MERN Stack, Redux, Cloudinary, Google Auth* **March 2025**

- Full-stack **DAM platform** with **Google OAuth** and **Cloudinary** hosting, supporting asset versioning and team-wide sharing.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, C++, C, SQL, HTML/CSS

Frontend: React.js, Next.js, React Native, Redux, Tailwind CSS, GSAP, Framer Motion

Backend: Node.js, Express.js, GraphQL, REST APIs, Prisma, JWT, WebSockets, Supabase

Databases: MongoDB, PostgreSQL, MySQL, IndexedDB (Dexie.js), MongoDB Atlas

AI & Automation: LangGraph, Claude Sonnet, Ollama, OpenAI API, Cursor AI, Prompt Engineering, Agentic Workflows

Cloud & DevOps: AWS (EC2, S3, CloudFront, Lambda), GitHub Actions, CI/CD Pipelines, Docker (basics)

Tools: Git, GitHub, Postman, JMeter, VS Code, Figma, Adobe Photoshop, Cypress

EDUCATION

Bachelor of Science in Information Technology **Sikkim, India**
Sikkim Manipal University — ***7.87/10*** *2017 – 2021*

CERTIFICATIONS / ACHIEVEMENTS

- Certified Full Stack Developer (2021) | Certified C & C++ Developer (2021)
- **Claude 101** – Anthropic (2026) | **AI Fluency for Small Businesses** – Anthropic & PayPal (2026)
- **YES Award for Excellence in FY23–24 and FY24–25** at Magneto for seamless delivery across **3/3 client engagements**.
